

YOUR HEALTHY CAFÉ

IN SINGAPORE

INVESTOR OPPORTUNITY

BACKGROUND

About 400,000 Singaporeans are diabetes and one in three has lifetime risk of developing the disease. And if nothing is done, the number of diabetes under age 70 is expected to rise to 670,000 by 2030 and one million by 2050.

Singapore government adopts a multi-pronged strategy to encourage Singaporeans to eat healthily and reduce their sugar intake from foods and drinks.

Coffee is one of the common sugar intakes for Singaporean. We are going to open a café to serve coffee with less sugar and food with balanced nutrition.

Perhaps breakfast before work, lunch break during working hour, a quick dinner after work or before going to gym, or a power-up after exercise.
